

Solar System QR Unit

By Makinzie Alamo

**Scan this QR code to get to
know Miss Alamo**

Listen to the CLYP to find out what you
are doing today.

You will be watching and listening to a couple songs today. This is the first one song and it's sang by our Story Bots.

Explore the NASA website
and write down one fact
from four planets.

Scan this QR and download the app *Solar Walk*.
After you are download, explore the app and get
a few facts.

Since our home planet
is Earth, let's listen to a
song about Earth.

To receive credit for this activity, you will answer questions throughout the unit. This is the first of three questions.

**Question: Why did the sun go
to school!**

One last song to listen to
about our planets.

Second Question!

Remember you need to answer it to
receive credit.

Explore the app 3D Solar System Walk

Explore Kid Astronomy.
Find three facts and write them on your paper.

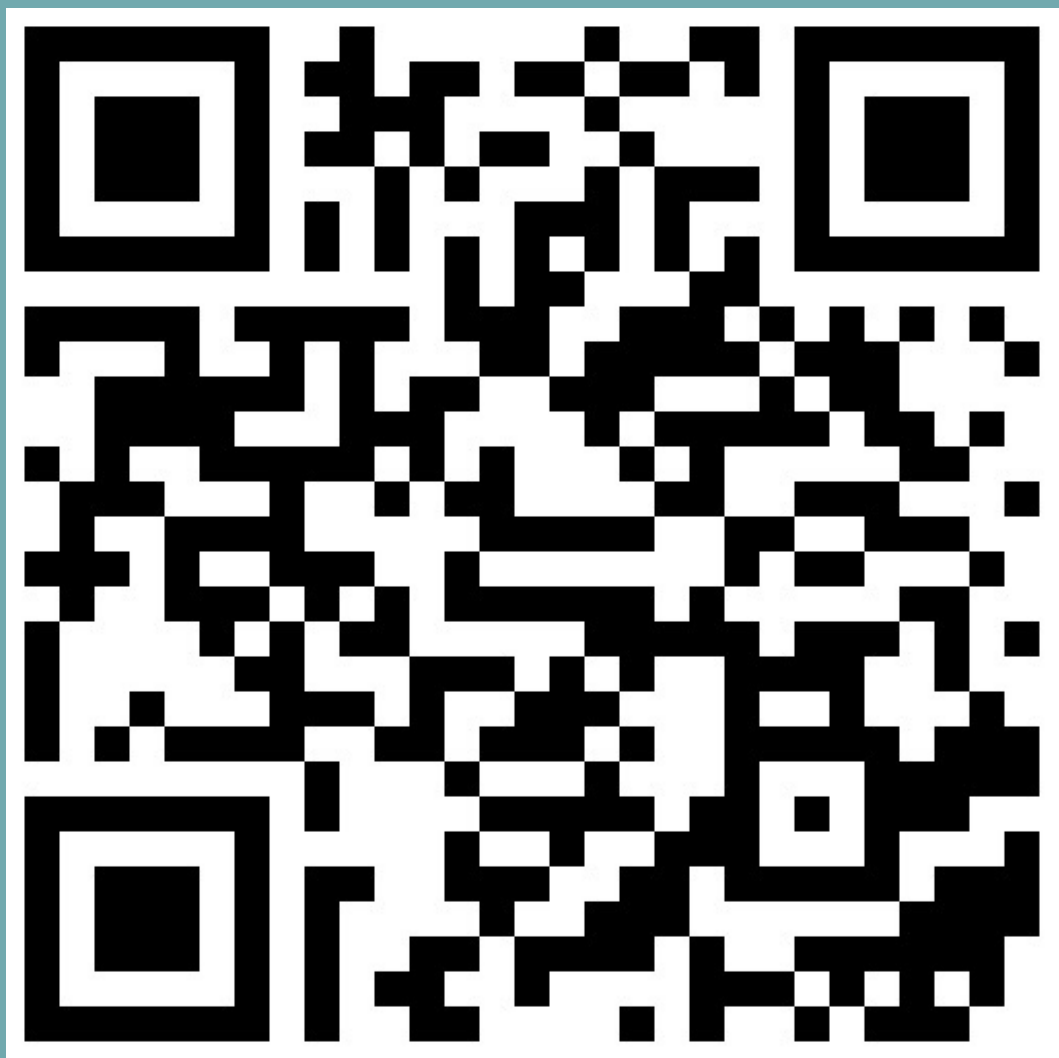

Take a listen to these jokes.

Sorry they are kind of corny.

Explore the Solar System on NASA fun website.
Write down one thing you liked about the website
on your paper.

Final question!!!
YAY!!!

Listen to Miss Alamo for her final comments. Once you are done, turn in your paper to the science tray.
